I've been sitting out in the car in a parking lot waiting for my partner, and am literally sweating with cold air blowing on me. This is not a side effect of my medication. It is caused externally.

How is it possible for a criminal to force you to make facial expressions? What tool is being used? It feels like a magnet inside of my face pulling it into specific contortions.

Heard back from Lorain county sheriff and Cuyahoga emergency communications systems. They were prompt in fulfilling my requests. I have still yet to hear from North Olmsted police department regarding my records requests.

It looks like North Olmsted police department isn't going to get back to me. I'll be around submitting records requests since no one in my life can tell me what's going on. It's nothing against them, I wouldn't believe this was possible if someone else told me it was happening to them.

North Olmsted police should communicate with the Lorain County Sheriff as that is where this all started.

I don't think they like the fact that I mentioned that, because within a few minutes they turned it back on. I'll mention again if they turn it back off. Seems like the goal is to get me outside while I'm actually dripping sweat. Gotta take my partner to work here soon.

Woke up this morning at 6am to a constant hot flash, dripping sweat in a freezing cold house. This lasted for 2 hours, it just stopped a few minutes ago.

Greeted this morning with pain in my left testicle that comes and goes as if someone is pressing a button somewhere else. The pain only exists while the button is depressed.

The last time I felt this pain was on our last drive to Michigan. They were able to alternate between left and right. The person today is only affecting the left.

I was allowed to pass stool today. I swear someone can press a button and it turns on my digestive tract. I believe it has something to do with the capabilities of the criminals using the findings of the article I posted, who apply them in... unique ways.

I wasn't allowed to empty my bowels, only a small amount. Seems I have to keep a certain amount of gas inside me at all times.

The people torturing me are bragging about how they are just doing it to get me to act out so they can either get me diagnosed with a mental health condition or thrown in jail. Those are their only two goals.

I plan on continuing to live my life as I always have. Eventually these criminals will be caught and held up. I know there are others out there going through the same thing.

The way these criminals operate, the people they are affecting might never know they were taken advantage of because they think they made all their own decisions themselves. Please read the article I posted and think.

Apparently the rule of law in this country has been dissolved. Criminals are allowed to do whatever they want to you and the police will not do anything about it. Never thought I would live in a free for all, but here we are.

Pain in my chest is getting bad again, they left it alone for the most part until now. It is a criminal doing this to me, they can do it while I'm at a hospital. I wonder who's going to end up explaining this to people.

I heard a knock on the door today around 11am while explaining to Mike Lannon how my surface got locked out. I went to the front door to see 3 police officers standing out front. I opened the window to acknowledge them, they identified me as Cory Bain and asked me to step outside to speak with them. I closed the window, went to the back door and went outside around back to meet up with them. I was greeted with neutral hostility. They informed me that they received a call from the FBI asking them to 'check in' on me because they were concerned for me. Their concern was based on the number of tips I submitted to the FBI, whom did not forward any of the information to the local police before asking them to come check in on me. Also the mention of drones, with evidence.

I tried to start explaining, but it was cold, and I was nervous. I tried to explain that the tips for the drones are completely reasonable, and mentioned I think they could be using the Frey effect- letting ChatGPT describe in detail what it is and how it can be used. I also showed them the article about electricity and the nose. They informed me that they do not have the tools to measure what is going on, and that I should seek mental health. I asked them to please return the call to the FBI and let them know that they would not be able to investigate what is actually happening. I informed them that my doctor had mentioned the same thing about being mental health related- but it is not mental health related and she is not a mental health professional. Because these officers didn't want to do their jobs and investigate actual criminality, they listened to what they believed was a call from the FBI field office, and at their direction went to intimidate someone who has had their civil rights repeatedly violated. I also mentioned that I thought Beckett Thermal Solutions was involved in this.

One of the things these people are talking about and is also a personal concern for me- a large sum of money missing from my grandpa's account, his social security seems to be gone, and us being only down to a small amount; I think he's being blackmailed. They asked if they could come inside to speak with my grandpa; I obliged. Once inside they started asking my grandpa some basic questions, and he gave off seemingly kosher answers off the top of his head. Officer 110 (female) started asking my grandpa leading questions about drugs, looking for an excuse to put me on a psych hold. The 2 male officers at this time were going back and forth asking questions of me, and insinuated they would like to check my bedroom by asking if the bedroom behind him was mine. I said it was, and walked over to it and shut the door indicating to him that I didn't want him peeking inside. He did this only after his female partner started asking my grandpa about drugs.

They absolutely discriminated against a person with disability as I am diagnosed with Opioid Use Disorder; seeking drugs to get a charge or justification for a psych hold. I would like to confirm that they actually spoke to someone in the FBI, and did not do this based off a spoofed call. I also would like the body camera footage pulled and reviewed. I would also like a personal copy for myself.

Don't be sorry, change.

So I just had three North Olmsted officers come to my house and intimidate me because of the tips I've submitted. They did not want to investigate any of my claims, they only wanted to send me to a mental health professional. The police are being used as a tool and I've been documenting it. They threatened me that if I continue, they will put me on a psych hold.

Officers 102 110 and 114.

I think something in my vehicle has been modified. Michael Lannon paid to put rain guards on my vehicle at the Kia dealership on Lorain rd. It took 6 hours, and it looked like the driver seat was completely covered up like it had been taken out. It was only supposed to take 2 hours- I had to check back multiple times.

I've found that things I say in my vehicle in private make it around to people. Joel Mohar removed his LinkedIn profile pictures the day I made fun of him while driving in my vehicle with my partner. They got put back up a few days later.

I refuse to go on a violent rampage. But I do see how the woman who stabbed a baby at the local giant eagle recently was thinking. I'm not sure if this is the police, or local businesses, or members of the medical community; I would start paying more attention to your family.
