

NORTH OLMSTED POLICE

Incident Number

Investigative Report

Title / Subject: WELFARE CHECK

25-12302

On 03/02/2025 Ptl. Martin, Ptl. Ganelli and I responded to 5830 Mckenzie Rd. for a welfare check.

FBI Agent Jared from the West Virginia Office had called NOPD to report that [REDACTED] had filed multiple tips online claiming that he was being followed by drones that were controlling his mind. Agent Jared stated [REDACTED] wrote that the voices were telling him to kill/hurt himself and commit heinous crimes.

Once on scene, Ptl. Martin and I made contact with [REDACTED]. [REDACTED] agreed to speak with us and explained that he was suffering from the "Frey Effect". [REDACTED] further explained that him and his "partner" were constantly suffering from radiation waves that disrupted his brain function. [REDACTED] stated that he needed the FBI to be aware of the problems he was having, which is why he was consistently attempting to contact them. When asked if he wanted to harm himself or others [REDACTED] stated that he would not. [REDACTED] stated that the voices in his head were telling him to hurt/kill himself, but he would never give in to the voices. [REDACTED] further stated that the voices would continue until he listened to them. [REDACTED] insisted that he was not a mental health consumer, and refused to talk to a medical professional. I asked [REDACTED] if he would be willing to have his vitals check by NOFD and he stated that he would refuse to talk to them because he had a previous bad experience with an ambulance. [REDACTED] stated that he would seek his own medical professional, but only to treat the possible radiation poisoning from the "Frey Effect".

We then spoke with Michael Lannon, the owner of the home. Michael stated that he was not related to [REDACTED], but was worried about his health. Michael allowed [REDACTED] to move in with him approximately 5 months ago after [REDACTED] had legal issues with his parents. Michael stated that [REDACTED] health had drastically declined in the last 2 months, but [REDACTED] was unwilling to go to a doctor because he does not have insurance. Michael stated that he would attempt to help [REDACTED] seek medical attention.

[REDACTED] again denied medical attention prior to our departure. [REDACTED] stated that he would continue to provide tips to the FBI about the on-going issues he was having at the residence. [REDACTED] stated he would reach out to NOPD if he felt that he needed assistance.

Report for informational purposes.
